	Περίληψη Πρόσκλησης:	<p>Topic called: ERC-2018-PoC: ERC Proof of Concept Grant</p> <p>Objectives: Frontier research often generates unexpected or new opportunities for commercial or societal application. The ERC Proof of Concept Grants aim to maximise the value of the excellent research that the ERC funds, by funding further work (i.e. activities which were not scheduled to be funded by the original ERC frontier research grant) to verify the innovation potential of ideas arising from ERC funded projects. Proof of Concept Grants are therefore on offer only to Principal Investigators whose proposals draw substantially on their ERC funded research.</p> <p>Maximum size of grant and grant assessment The financial contribution will be up to a maximum of EUR 150 000 for a period of 18 months. The ERC expects that normally, proof of concept projects should be completed within 12 months. However, to allow for those projects that require more preparation time, projects will be signed for 18 months. Given this initial flexibility, extensions of the duration of proof of concept projects may be granted only exceptionally.</p> <p>The overall level of the funding offered will be assessed during the evaluation. The funding requested by the applicant will be judged against the needs of the proposed activity before award. The funding requested by the Principal Investigator must be fully justified by an estimation of the actual costs for the proposed activities.</p> <p>The Union financial contribution will take the form of the reimbursement of up to 100% of the total eligible and approved direct costs and of flat-rate financing of indirect costs on the basis of 25% of the total eligible direct costs (excluding the direct costs for subcontracting and the costs of resources made available by third parties which are not used on the premises of the host institution.). The level of the awarded grant represents a maximum overall figure – the final amount to be paid must be justified on the basis of the costs actually incurred for the project.</p> <p>Profile of the ERC Proof of Concept Grant Principal Investigator All Principal Investigators in an ERC frontier research project, that is either on going or has ended (where the duration of the project fixed in the ERC Grant Agreement has ended) less than 12 months before 1 January 2018, are eligible to participate and apply for an ERC Proof of Concept Grant.</p> <p>For further information please refer to the ERC Work Programme 2018.</p>

	Περίληψη Πρόσκλησης:	Topic called: H2020-SWFS-2016-2017-35: EU Prize for Women Innovators 2018 Summary: Europe urgently needs more innovators to stay competitive in the coming decades and to spur economic growth. The large number of well-educated women who, for various reasons, including lack of awareness, do not consider entrepreneurship as an option, represents a tremendous untapped pool of innovation. Awards have a strong potential to drive innovation through the recognition of achievements and the promotion of role models. Therefore, the European Commission created in 2011 a Prize for Women Innovators to increase public awareness of this issue and to encourage women to exploit the commercial and business opportunities and become entrepreneurs. After the success of the forerunners of the contest in 2011, 2014, 2016 and 2017 the Commission intends to continue its drive to spotlight women innovators and entrepreneurs who have brought outstanding innovations to the market. The EC wants to highlight the outstanding achievements of women innovators who have (co-) founded a successful company and brought an innovation to market and benefitted from Research and Innovation funding from the public or private sector. The Commission will award up to three "EU Prize for Women Innovators" and one "Rising Innovator Award" (female innovators - aged 30 years or under - at the start of their careers) following a European-wide contest. First Prize 100 000 EUR Second Prize 50 000 EUR Third Prize 30 000 EUR Rising Innovator 20 000 EUR You can receive regular updates on the contest via http://ec.europa.eu/research/innovation-union/index_en.cfm?section=women-innovators and follow #WIPrizeEU on Twitter.
